12th Conference on Network Science and Economics

University of Luxembourg Oct 23-25, 2026

October 23, Room C005

9-10:20

Friends or Neighbors? Advice Networks, Geographic Proximity, and the Transmission of Health Knowledge Michael Vlassopoulos

When Networks fall Apart Sudipta Sarangi

10:20-10:50 break

10:50-12:10

Incidental homophily Stephen Nei

Social Networks and Collective Action in Large Populations: An Application to the Arab Spring Michael Koenig

12:10-1:40 Lunch

1:40-3

Homophily, Social Communication and Credibility: An Experiment Nicole Tabasso

The Causal Effects of Peer Exposure vs. Friendship on Economic Mobility Matthew O. Jackson

3-3:30 break

3:30-4:50

Homophily and Affective Polarization: When Like-Mindedness Reduces Ideological Division Luca Paolo Merlino

Polarization and Information Cascades: Evidence from French Politicians' Tweets Margherita Comola

October 23

5-6:30 pm Posters

Network Games under Uncertainty on Multiplex Networks Timon Brinker

Network Structure and the Dynamics of Social Platform Migration Louis Dalpra

Follow the leader: The effect of high-quality peers on turnover decisions Marlon Francisco

Continuum Network Formation Yu-Chi Hsieh

Welfare bounds for linear-quadratic network games Yuki Iwanaga

Who Benefits from Clearing? Private Incentives and Social Value in Trade Credit Networks Giovanna Magri

Competitive Altruism in Public Goods Provision Abhijeet Mishra

Propagation Through People: The Labor-Flow Origins of R&D-Driven Growth Elad Passi

Reputational Goods and Ownership Networks Sergey Popov

The Centrality Paradox: Measuring Positional Advantage in Labor Market Networks Diego San Román

Stable Signed Networks Qingchao Zeng

Cooperation with Enemies:Relative Power and Structural Balance in Signed Networks Bozhong Zheng

6:30pm Conference Dinner

October 24

9-10:30

Games on Networks 1 room A401

Breaking the Chain: Division Norms and Criminal Deterrence Constantine Sorokin

Consistency and revenue sharing in hierarchies Marti Jane Ballarin

Information and Misinformation in Networks Iman Kundu

Sequential Network Games Matteo Bizzarri

Network Formation 1 room B001

Stable Governments and Coups in Political Networks Shahir Safi

War, Networks, and the Dissolution of Social Ties Sára Herdon

Strategic Centrality and the Emergence of Core-Periphery Networks Wade Hann-Caruthers

Triadic Network Formation Cavit Pakel

Peer Effects 1 room C005

Social Comparison and Young Adult Mental Health with Endogenous Network Formation Junwei Fan

Inclusive Networks: Fairness and Efficiency with Altruistic Spillovers Kemal Kivanc Akoz

When Trouble Travels: Peer Effects of Criminal Exposure in Schools Hikaru Kawarazaki

Identity Salience in Multilayer Social Networks Christian Ghiglino

Financial Networks room C006

Gaming the Threshold: Size-Dependent Tax Policy and Domestic Profit Shifting Krislert Samphantharak

Rewiring Repo Vladimir Yankov

The Stablecoin Payment Network after the GENIUS Act Anton Badev

Incomplete Market Equilibrium under Social Comparisons Marko Weber

10:30-11 break

11-12:10

AI and Networks 1 room A401

AI Contagion in Social Networks Olivier Bos

Generative AI and the Structure of Scientific Creativity Prashant Garg

Networked data market inequalities Alastair Langtry

Experiments room B001

Social Networks and the Emergence of Conventions: An Experiment Siyu Chen

The friendship paradox: Causal evidence of its behavioral consequences Miguel Melendez-Jimenez

The Impact of Network Structure on the Efficiency of Risk Sharing: An Experimental Study Gergely Horvath

Games on Networks 2 room C005

When Do Markets Work? Multiplex Networks and Efficiency Chengqing Li

Demographic Composition and Social Integration Sihua Ding

Local network obstructions to deferred acceptance Florian Burnat

Learning 1 room C006

Bewley-Knight Equilibria in Activism Games Dominik Karos

On the Inefficiency of Social Learning Atulya Jain

Rational DeGroot Learning Lyle Goodyear

12:10-1:50 Lunch

1:50-3:00

Learning 2 room A401

Opinion Dynamics with Differentiated Messaging: Conformity and Polarization Andrew Harkins

Joint Learning by Doing Vatsal Khandelwal

Whom Should a Platform Amplify? Truth, Engagement, and Networked Polarization Zaruhi Hakobyan

Network Formation 2 room B001

Cluster-Based Funding and the Gender Gap in Scientific Collaboration Networks: Evidence from a Quasi-Experiment Amal Boughnim

Strategic Financial Networks, Equilibrium Dynamics and Endogenous Systemic Risk Jean-Pierre Zigrand

The Economics of Decentralized Connectivity Nazem Khan

Production Networks 1 room C005

Economic resilience and shock propagation in firm-level production networks after the 2016 Ecuador earthquake Johannes Stangl

Production Network Spillovers from EU-Funded R&D Grants Ebehi Iyoha

Vulnerability Webs: Systemic Risk in Software Networks Co-Pierre Georg

Statistical Analysis of Networks 1 room C006

Gender Differences in Prosocial Behaviors through Digital Social Networks Haochen Zhang

Detecting structural breaks in panel data models of social interactions with unknown networks Michele Aquaro

Estimating Unobserved Networks from Heterogeneous Characteristics with an Application to the Swing Riots Kieran Marray

3:00-3:30 break

3:30-4:40

Production Networks 2 room A401

Repricing cascades through production networks Teruyoshi Kobayashi

Rigidity and Default in Production Networks Giacomo Como

Supporting Upstream Industries, Choosing Purchasers: Industrial Policy in Open Economies Xufeng Wang

Networked Bargaining and Matching room B001

Nash-Credible Bargaining Eduard Talamàs

Peer Selection with Friends and Enemies Francis Bloch

Matching with Enemies Vincent Vannetelbosch

Peer Effects 2 room C005

Learning Strategic Interaction in Network Games: Identification, Estimation, and Policy Design Emerson Melo

Peer Pressure in Linear-Quadratic Games Kenan Huremovic

Identification of Heterogeneous Peer Effects Eyo Herstad

October 25

9-10:30

Statistical Analysis of Networks-2 room A401

Cognitive Constraints in Survey Recall: Experimental Evidence from Social Network Elicitation in South Africa Nilmini Herath

Detection Spillovers in Corporate Cartel Networks: An Empirical Analysis Florian Thierry-Coudon

On the Influence of Top Journals Lorenzo Ductor

Production Networks 3 room B001

Weblinks to Trade: Estimating Interregional Trade Peter Horvat

Tariffs in Networked Markets: Propagation, Welfare and Warfare Norma Olaizola

Coordination and Fragility in Production Networks Xinyi Zhao

Pricing and Shock Propagation through Demand and Production Networks Zhongji Wei

Network Formation 3 room C005

Connectedness and Populism: A Framework for Studying Social-Media Regulation Christos Koulovatianos

Evolutionarily stable networks Peter Bayer

Intolerance and Polarization: The Role of Popularity Networks Dunia López Pintado

School Choice with Unobservable Matchings Ana Mauleon

Peer Effects 3 room C006

Kamikazes in Public Procurements: Bid-Rigging and Real Non-Market Outcomes Dimas Fazio

Board Interlocks and Sustainable Performance of UK Companies Beata Łopaciuk-Gonczaryk

Peer effects in networks with indivisible actions Zhang Yifan

Networked risk perception and behavioral bubbles: Evidence from the COVID-19 pandemic Babak Heydari

10:30-11 break

11-12:10

Production Networks 4 room A401

Bounding Network Propagation Jordan Norris

The Matching Function: A Unified Look into the Black Box Georgios Angelis

Social Capital room B001

Ask a Buddy or a Bot? Unbundling Answers from Relationships Maxim Ventura

Friending Bias and Exposure in the Classroom Rune Vammen Lesner

Fragmented Networks, Persistent Inequality: Moderators, Mechanisms, and an Instrumental Variables Approach Using Historical Data Boris Pavlenko

Networks, Information, and Labor Markets room C005

The Role of Employees as Information Intermediaries: Evidence from Their Professional Connections Stephen Hillegeist

Labor Mobility and Transferable Tasks Florian Hack

Misreading the Crowd: The Composition Externality of Inference Kwabena Baah Donkor
